## PROGRAM INFORMATION

All horses' past performances are recorded by Standardbred Canada. The latest past performances of any horse can be found in a race program.

Once a horse is entered into an overnight event, an official program is printed with all racing information including the past performances. The program gives a detailed account on how the horses have performed in the past, including type of race, post and finish positions and time rated. A charted line provides an accurate history of the horses' abilities and weaknesses and therefore can be extremely beneficial for an owner or trainer to distinguish the class a horse should be entered, as well as if a horse performs better on different sized tracks.

Due to the significant amount of information provided in a race program, abbreviations have been created to differentiate the information.
