

BRETT REVINGTON

Stratford, Prince Edward Island

Nominated as: Active Director, Atlantic Region

I come from a family with deep roots in the Standardbred Racing Industry.

For my formal education I attended the University of New Brunswick in Fredericton where I studied Business Administration. Upon completion of that program I returned home to work in the banking world. From there I went across seas to manage the Domino's Pizza chain in Dublin, Ireland. Deep down I knew where I wanted to be which was to be working within the harness racing industry.

I then began a 6 year stint with Woodbine Entertainment Group working from the race office taking entries, assisting in race draws, charting and Stakes Co-coordinator. These 6 years gave me a great overall appreciation for all facets of the business. Judging was my next role for 2.5 years which helped me see what issues the Racing Commission deals with on a daily basis. This gave me the necessary experience to see all issues from different perspectives including the customer, track operator and regulator.

I am now back on the track operator side of the business working at Western Fair and currently Red Shores in Prince Edward Island. I feel I would bring a well rounded perspective to the Standardbred Canada Board as I have seen and worked from many different sides of this business.

During my tenure I hope to accomplish getting restrictions removed for new wager products. Bring any and all issues of horse people on Prince Edward Island to the forefront. Also, I would welcome the opportunity to help organize a racing feasibility study that looks at all racing jurisdictions across Canada.
