

Ryan Clements
London, ON

Nominated as ONTARIO ACTIVE DIRECTOR

Ryan lives and breathes harness racing. Growing up on a horse farm in Uxbridge, Ontario racing has always been a part of his life and is in his blood. From creating harness racing video games with over a quarter million downloads, to recently forming the Forest City Racing Club to grow fractional ownership locally in London, Ontario, Ryan is constantly on the search for ways to grow the sport that he loves.

Having served on the Standardbred Canada board for a couple of years now, Ryan brings a unique experience set to the Board with his background in software and technology.

Ryan is realistic about the challenges facing the sport, but remains optimistic - believing that the sport has a bright future ahead if it can adapt to the world of today. He believes that unleashing technology and data within our sport are keys to unlocking that bright future.

Ryan thanks you for your support in continuing to serve the Standardbred Canada membership as a director.
