

SC NATIONAL RACING STATISTICS

QUARTERLY REPORT

April 1, 2023 - June 30, 2023

Executive Summary

Key Findings

- The number of races in Canada was down 3% in the second quarter of 2023 compared to 2022.
- The race date decrease was largely due to a 26% drop in the number of races in the Western region (439 vs. 326 in 2022). The decrease was mostly as a result of Fraser Downs concluding their meet on May 5, 2023. In 2022, due to numerous winter cancellations, Fraser extended their meet until the end of June.
- Quebec, Ontario and the Atlantic regions have shown increases in the overall number of races year over year.
- The number of Starts was up in all regions but the Western region.
- The number of unique horses was flat in Quarter 2 with a noted increase of fifty more unique horses reported in the province of Quebec.
- Nationally the Average Number of Starts per horse was relatively flat year over year with Quebec showing a decrease in the number of horses due to the additional unique horses reported in Q2.
- Average Field Size saw an increase of 4% overall with a whopping 19% increase in Field Size in the Western Region jumping from 6.3 in Q2-2022 to 7.5 in Q2-2023. Quebec had a 4% increase in field size from 7.6 to 7.9 year over year.
- Average Money Earned per Unique Starter saw a 2% increase overall with a 15% increase year over year in the Atlantic region, a 20% decrease in Quebec and a 9% decrease in the Western region for the same period year over year.
- There was a 3% increase in purse money with increases in the Atlantic Region (13%), Ontario (3%), and Quebec (1%). The Western region saw an 11% decrease in purse money due to fewer races reported earlier.
- The country saw a 6% increase in Handle for the same period last year to this year with a 70% increase in the Atlantic Region, a 47% increase in the Quebec Region, a 6% increase in Ontario, and a 13% decline in the Western Region.

Top Ten Breeders of Record highlights:

The top 10 breeders accounted for the following share of Q2 earnings in each region:

- In Ontario, they accounted for 27% of total dollars earned.
- In the Western Region, they accounted for 39% of total dollars earned.
- In Atlantic Canada, they accounted for 40% of total dollars earned.
- In Quebec, they accounted for 52% of total dollars earned.

In addition, some other provinces worth noting:

The top 10 breeders accounted for the following share of Q2 earnings in these provinces:

- In Manitoba, they accounted for 83% of total dollars earned.
- In Nova Scotia, they accounted for 79% of total dollars earned.
- In New Brunswick, they accounted for 92% of total dollars earned.
