

SC NATIONAL RACING STATISTICS

ANNUAL REPORT

JANUARY 1, 2023 - DECEMBER 31, 2023

EXECUTIVE SUMMARY: KEY FINDINGS

Year over year numbers from 2022 to 2023 show national increases in many key racing metrics, including number of races, number of starts, number of unique horses, average starts per horse, average field size and handle.

Handle on racing in Quebec (a 42 per cent increase) and Atlantic Canada (a 36 per cent increase) in 2023 showed the biggest gain from 2022 numbers. Handle in Atlantic Canada showed gains in every province.

The most noticeable decline came in the total purses offered in Ontario from 2022 to 2023, down more than 8.5 percent. Two likely factors for this change would be the Breeders Crown championship series at Woodbine Mohawk Park in 2022, but not in 2023, and an abnormal number of 2023 race date cancellations due to wildfires.

A change in the Breeders Crown rotation also affected overall earnings potential for horses racing in Canada in 2023 versus 2022.

On the breeding side, Ontario's breeders represented 60 per cent of the nation's active breeders in 2023. The number of recorded matings in the province (2,018) nearly doubled the rest of Canada's mating total (1,088).

A higher percentage of Canadian horses — registered, sired or foals — were sold at auction in 2023. There was an increase in sales prices for Canadian registered horses, but Canadian sired and Canadian foaled horses both saw declines in terms of overall and average price.
