

SC NATIONAL RACING STATISTICS

QUARTERLY REPORT

JANUARY 1, 2024 - MARCH 31, 2024

EXECUTIVE SUMMARY: KEY FINDINGS

The statistics for 2024's first quarter show decent year over year gains in races, starts, unique horses, purse totals and handle.

A delayed start to the 2024 season at Fraser Downs in British Columbia negatively impacted some Q1 numbers in Western Canada, but with the meet having those dates added to the end of the season, there's a chance for an increase year over year in Q2.

While the number of unique horses was up overall at seven per cent, the average field size (-1.26%) and the average number of starts per horse (-0.75%) dropped slightly on a national scale.

Ontario was the only jurisdiction in Q1 where the top 10 grossing breeders did not represent the majority of earnings for horses bred by foaling province.

The top 10 breeders in Ontario represented just under 26 per cent of the breeders' total earnings. Ontario-foaled horses represented more than 71 per cent of the Q1 earnings by Canadian-foaled racehorses.
