**Truro, NS**

**Nominated as ACTIVE DIRECTOR - ATLANTIC REGION**

I am honored to be nominated for a third term as the Standardbred Canada Active Director representing the Atlantic Region. Over the past six years, I have served the membership with dedication, including as Chair of the Governance Committee—where the focus has been on strengthening accountability and process—and now, most recently as Chair of the Strategic Planning and Process Committee. This past year, my peers on the Board elected me Vice-Chair for a second time, and I have been a committed member of the Government Relations Committee since its inception.

I am eager to continue my work in these roles and see our collective initiatives through to completion. I am committed to open and respectful communication, never shying away from difficult conversations, and always willing to voice both my perspective and the concerns of others brought forward by our Members. I deeply value healthy discourse and collaborative teamwork, and I have appreciated learning from the diverse perspectives, challenges, and solutions shared by horsepeople across the country. We are united by our perseverance and passion for the horse and the sport.

On a personal note, this year has been very busy at our stable and has taken me to most racetracks in our region, allowing me to meet many local horsepeople face-to-face. As our ownership group grows, we are welcoming new Members from across the Atlantic Provinces, including many returning to the industry after years away, which gives me great optimism for the future of harness racing in our area. It would be a true honor to continue representing the Active Horsemen of the Atlantic Region as your Standardbred Canada Active Director for another term.

Sincerely,

Andrea Rennison
